REMARKS

The Applicant wishes to express appreciation to the Examiner for consideration of this after final amendment.

Claims 1-4 and 6-19 were pending in the present office action. Claims 12 and 16 have now been canceled. Reconsideration of the application is respectfully requested in view of the amendment and the following responsive remarks.

In the office action of 08/18/2005, the Examiner rejected claims 1-4 and 6-19 under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 5,750,482 (hereinafter "Cummings").

It is respectfully submitted that the presently pending claims be examined and allowed. Applicant submits that each and every amendment herein, and throughout the prosecution of the present application is fully supported by the specification as originally filed, and that no new matter has been added.

Rejections Under 35 U.S.C. § 103

The Examiner has rejected claims 1-4 and 6-19 under 35 U.S.C. 103(a) as being unpatentable over Cummings. Note that claim 1 has been amended to exclude ethylene glycol monohexyl ether from the composition. The Applicant respectfully submits that these claims are now patentable over the cited reference and requests that the rejections be withdrawn, as Cummings requires the use of ethylene glycol monohexyl ether.
